JACOPO MARINI

Chicago, IL, U.S. | jacopo.marini@chicagobooth.edu | LinkedIn

EDUCATION

The University of Chicago *Jan 2026 - Jun 2026*
Graduate Student at Large Chicago, U.S.

- Real Analysis, Grade: A

Sciences Po Paris *Sep 2021 - Jun 2024*
Bachelor in Economics Paris, France

- GPA: 4.0, *cum laude* and Dean's Letter of Merit. Ranked 7th across all majors in the second year.
- Top of the cohort in: Intermediate Macro, Labor Economics, Spatial Economics, Political Philosophy.

London School of Economics and Political Sciences (LSE) *Sep 2023 - Jun 2024*
Exchange student at the Departments of Economics London, U.K.

- Top of the Cohort in: Advanced Macroeconomics

PROFESSIONAL EXPERIENCE

University of Chicago, Booth School of Business *Aug 2026 - Present*
Research Professional working for Prof. Luigi Zingales at the Stigler Center Chicago, U.S.

- Modeled the incidence of pension portfolio appreciation on workers, sponsors and the government.
- Developed counterfactual analyses to quantify the distributional effects of changes in capital and labor income.
- Constructed two novel datasets: (i) the most comprehensive historical record of insider ownership (1935–1950); and (ii) the first panel tracking both institutional and managerial ownership across all U.S. listed firms, including dual-class companies (1980–present).

London School of Economics and Political Sciences *Sep 2025 - Jul 2026*
Predoctoral Researcher working for Prof. Camille Landais and Prof. Xavier Jaravel London, U.K.

- Built a dataset with household-level information on the user cost of housing (see: Chodorow-Reich et al. 2025)
- Organised the harmonisation pipeline bringing together the largest collection of Time Use Surveys ever created and created an internal package for automating pseudo-event study analysis in R.

Collège de France - Farhi Innovation Lab *Jun 2023 - Jan 2025*
Research Assistant for Prof. Philippe Aghion and Antonin Bergeaud Paris, France

- Applied different empirical strategies (RDDs, synthetic control, local projections) to study the effect of industrial and monetary policy on R&D and innovation. Extended PatentCity a dataset of invetors locations and patents in the 20th century. (See: Bergeaud et al. (2025) and Bergeaud et al. (2026))

WORKING PAPERS

The Innovation Cost of Mergers *Writing Sample*

- Presented at the University of Chicago Internal Research Professional Workshop (Chicago, Nov 2026)

Who Owns Corporate America? [*with Luigi Zingales*]

- Due for publication in the Columbia Law Review as part of the *Berle XIX* conference proceedings, April 2027.
- Presented (by Luigi Zingales) at the EIEF Summer Conference (Rome, July 2026).

WORK IN PROGRESS *(drafts soon available)*

Measuring Patent Defensiveness

For Whom the Bell Tolls? Equity Gains and their Distributional Impact in the Long Run [*with Luigi Zingales*]

Merger Waves and the Origins of Berle and Means [*with Pier Paolo Creanza and Luigi Zingales*]
